Wedding Photography Investment 2021-2022

Thank you so much for being interested in my work. A couple quick things before we get down to the nuts and bolts of the different packages.

My Style: It is so important that you absolutely LOVE my style of photography in order to absolutely LOVE your photographs. My photography style is as simple as I can get. I lean towards photojournalism-candid photography mostly at weddings and family photo shoots because I feel it is my job to capture the moments and emotions exchanged between people. I have often heard "Wow, how did you get that photograph?! I didn't even know you were there!" I do however offer guidance during shoots, but I try to keep things organic and authentic without making you feel posed. I do not deliver every image I take at a wedding, I do however deliver all images that I have edited and feel are the best representation of your day.

Investment: Wedding photographs are something that you and your family & friends will cherish for years & hopefully generations! All packages below cover travel costs through Southern British Columbia and into Washington State. If your wedding is outside of these area's please know I am a BIG fan of traveling and would love to put together a special package for you anywhere on planet earth!
